NEXT GENERAL MEETING
FEBRUARY 15, 2012
MISSION VALLEY RESORT
875 HOTEL CIRCLE SO.

FEBRUARY

SAN DIEGO CHAPTER MONTHLY NEWSLETTER

2012

President's Message

I just got back from Newport Beach after attending the IPSSA Leadership Weekend. Trusted Treasurer, Pat Nieratko and I gathered a great deal of information that will assist us in our duties. I am happy to report that our association is in very capable and dedicated hands. Our BORD representatives are looking out for our best interests and volunteering a great deal of time to assure that our individual chapters prosper. The accountants at IPSSA Financial are running a tight ship, and the association overall is in good shape financially. IPSSA.com now offers a full spectrum of online educational courses. Water Safety continues to be a top priority for our BORD. The Outreach Department is working closely with SPEC to make sure our industry is being represented in Sacramento. With over 3800 members nationwide, IPSSA is stronger than ever!

Perhaps the most compelling speaker at the conference was Ray Arouesty from Arrow Insurance. He introduced a few new additions to our insurance plan. The next time you have a backyard accident such as laceration, chemical injury, or dog bite; and don't have insurance, you are now

covered by Arrow. (\$5000max). Loose your ring of customer keys? No worries, we now have coverage. Do not miss the February Membership Meeting on the 15th; I will give you the details regarding all of our policy upgrades.

We will also be discussing an ongoing problem with the RolaChem chlorine feeder. Arrow recently paid a half million dollar settlement involving this unit. If you have any of these units in operation you will not want to miss this meeting. We will discuss the case and the proper protocol for this significant issue. Until then, lets be safe out there.

Mike Anderson

NDPA Drowning Prevention Symposium

From: Mary Downing
[<mailto:marydowning@san.rr.com>]

To: 'Chuck Gough'; 'Vickie Lester'

Cc: 'Mark Curran'; 'Mary Downing'; 'Manuel Gonzalez'
Subject: Event- NDPA Drowning Prevention Symposium in San Diego IPSSA is sponsoring

Hi Chuck, Vickie and Mark, Happy New Year! I wanted to reach out and ask that you including an invitation to all IPSSA members and chapter supporters in your newsletters or website. Please consider attending the 11th Annual Drowning

Prevention Symposium in San Diego. The dates are March 7-10 which includes the pre and post conference events...but the full days are March 8 and 9. The brochure and agenda are on line at www.ndpa.org, and registration is open now. We expect this event to draw over 200 attendees, and we hope that many IPSSA members (and supporters) will attend.

Hope to see you there, and thank you for your support, sponsorship and work in water safety. Kindest regards,
Mary

Mary Ann Downing
NDPA Board of Directors, 2012
Symposium Co-Chair

Blue Cards Due on or before Feb. 15 General Meeting

Please send or give your completed, legible Blue Cards to Paul Grimes. Your options are:

- Mail via US Postal Service to San Diego Chapter IPSSA PO Box 600862 SD CA 92160-0862.

Must be postmarked on or before Feb. 15, 2012

- Bring to February meeting and hand to Paul Grimes.

Failure to submit a Blue Card as listed above will result in a \$50 fine. A \$50 fine can be assessed for an incomplete card or if the card is illegible.

Board Meeting – February 1, 2012

Mike Anderson, Joe Dianna,
Matthew Sweeney, Mark Curran
Guest John Silcox and Paul Grimes

Call to order 7:16 pm.

Mike Anderson updated the board
with a new roster from IPSSA Inc.
Officer Reports

Vice president Joe Dianna spoke
about chapter supporters who have
not paid and there deadline for the
2012 Directory.

A potential chapter supporter is
Water Way.

Secretary Matt Sweeney will be
taking over the monthly skimmer
from Paul Grimes when ready.

7:46 pm. Past president Mark
Curran reported on Jeff Waters pool
route. Jeff's route has been sold and
coverage will end next week.

Mike Anderson spoke about
possibly voting in Mike Greg as an
honorary member at the October
meeting.

8:15pm. Paul Grimes discussed
possible ideas for sending out the

blue cards via email and mail.

Mike Anderson spoke about a
possible new location for our
general meeting. The Admiral Baker
Club would offer food services and
a meal once a quarter.

Mike Anderson also talked
about Chapter supporters buying a
15 minute exclusive presentation at
our general meeting. This will
encourage chapter supporters to
better focus on our members.

8:45 pm. John Silcox, of the New
Member Committee, discussed
ideas on how new members will be
screened.

9:23 pm. Paul Grimes gave an
update on the 2012 IPSSA
directory. The directory should be
out before the February general
meeting.

Meeting adjourned 9:56pm.

7:33 Ron Baker discussed current sick
leave coverage and thanked four
members for covering four to six pools
each in North County.

John McArthur reported that
nobody was expelled from lack of
points for the Continuing Education
requirement. He also reminded
everybody that 10 points are needed
every 2 years. Two of the 10 points are
now allowed for online classes.

James Morketter spoke about the
upcoming Blood Drive this Saturday
2/21. Remember that you can always
donate blood under IPSSA at any time.
National Drowning Alliances will be
having seminars from March 7th to the
10th.

7:46 Jon Silcox made a motion that we
fund \$309.00 for two members to
attend the National Drowning Alliance
3/7 – 3/10. Jon McArthur seconded the
motion. Board agreed to motion.

The online skimmer will be taken over
by Matt Sweeney, Board Secretary,
with the help of Paul Grimes.

Bob Fowler gave a brief speech to
honor the passing of Jeff Waters and
Richard Smith.

8:02pm. Meeting Adjourned.

General Meeting January 18th 2012

Call to order 7:08 pm.

Jon Silcox informed the
Chapter that the duties of the New
Member Committee will be split
between four current members.
7:18 Minutes from January 4th
board meeting approved.

Mark Curran spoke about
Jeff Waters's™ route and the
current sick leave coverage.

Richard Smith, from Blue
Moon Pools, passed away this
weekend January 15th.
There was a reminder that the
Pentair classes, held this month, will
be worth 10 points for Continuing
Education.

Clear Water Pool Covers

Automatic Cover Problems?

We do: ♦ Service on all brands of automatic pool covers
♦ Replacement fabrics for all existing systems
♦ System installations on new or existing pools

We do NOT:

♦ Sell any pool products other than automatic covers
♦ Clean Pools
♦ Sell or service any other pool equipment

Automatic Pool Covers are our only business !!

Subject: The State-of-the-Art Pool Service

A few questions have been raised in the pool industry recently about pool water treatment. These include whether trichlor is inherently bad for pool plaster, what the effect of cyanuric acid is on pool plaster, whether pools can successfully be chemically maintained with weekly service visits, and what, if any, improvements have been made to water balancing chemistry in the last 40 years.

Trichlor – Because of its ease of use and its stability in storage, trichlor use has increased in popularity. When using trichlor for chlorination, very little if any muriatic acid is needed for pH reduction. The advantage of using trichlor is that it dissolves very slowly, which allows the water to buffer (resist pH change) the moderately acidic nature of this chemical much easier. Both muriatic acid and sodium bisulfate (dry acid) dissolve quickly, and immediately pack a significant punch in lowering pH. Since muriatic and dry acids are heavier than water, they also sink to the bottom of pools when added improperly, which is aggressive to the plaster surface. More importantly, muriatic and dry acids are one hundred times more acidic than trichlor. When added by hand, liquid and dry acids should always be diluted and trickled around the perimeter of the pool.

Because of the slow dissolving nature of trichlor, another advantage of using it is that it helps maintain a more consistent pH over the course of a week. While treating swimming pool water, we all have learned that the pH in typical pool water generally rises after treatment and balancing. When service techs balance pH to 7.4, and return a week later to treat the water again, the pH may have risen. However,

slow dissolving trichlor will offset this natural pH rise over the course of a week and will help maintain a more constant pH during this time period.

While improperly fed trichlor (that is, when trichlor is allowed to concentrate rather than dissolve in a distributed fashion) can cause etching on a top step or corner of a pool or at a return line opening, blaming trichlor for other, non-etching related plaster problems, especially in other areas of the pool, is misguided.

Cyanuric acid – This chemical has come under recent scrutiny – both in its role as a component of the alkaline buffer in a pool, and its effect on plaster. In a nutshell, cyanurate (the alkaline portion of cyanuric acid in water) is part of total alkalinity. When performing accurate water balance equations (LSI), only the carbonate/bicarbonate type of alkalinity should be included, and needs to be isolated from the cyanurate alkalinity. The APSP has published material on this and we recommend it. On the other hand, some claim cyanuric acid is inherently aggressive to plaster surfaces. Properly dissolved cyanuric acid at recommended pool concentrations is not aggressive, in and of itself, to plaster.

Weekly Service – Some industry people have made the claim that service techs are not capable of properly maintaining balanced water chemistry with weekly service visits. Yet, many have been doing just that for decades without problems. For example, maintaining a lower TA and using borates for additional buffering can be one solution to proper pH control.

Advances – Let's look at a few advancements in the maintenance of pools over the years. Before the mid-70s, test kits usually only included pH and total chlorine tests, while testing for alkalinity and calcium hardness was almost non-existent. Now, test kits, including test strips, are more sophisticated which includes testing for alkalinity,

and calcium hardness. Mini spectrophotometers and pH meters are now available for more reliable readings. Mini labs are available for very accurate titration capabilities.

Back in the 1970's, the concept of water balance (Langelier Saturation Index) was not widely known or understood. Now, balancing water using the Saturation Index is now expected of both professionals and pool owners. The Saturation Index has been modified and improved because of high TDS considerations. Chemical addition charts have been developed and improved providing more accurate amounts of chemicals to add for balancing. Computer software programs provide pool stores with the ability to assist pool owners in water balancing.

The service industry today has special chemical startup procedures, chelation and sequestering agents, and stain removal programs. Devices have been introduced to add chemicals more efficiently and the use of automation has blossomed over the last couple of decades. Even greater advancements have come from the development of automatic pool cleaners and more sophisticated filtration systems.

There has been an increase in educational seminars throughout the country, teaching and helping service techs to better understand the proper applications and mechanics of water chemistry maintenance. Trade associations such as APSP, FPSIE, NSPF, IPSSA, UPA, with their courses and requirements for certification have been a major factor in the improvement of overall service quality.

In conclusion, the service industry is providing a higher quality of pool maintenance today. We believe that there will continue to be improvements and advancements within this segment of the industry.

February 10, 2012

IPSSA Demonstrates Strong Support for SPEC

Independent Pool Spa Services Association (IPSSA) and its various California chapters demonstrated strong support for SPEC at its association's Annual Leadership Meeting in Newport Beach. Representatives of IPSSA and its various chapters presented contributions totaling \$40,000 to John A. Norwood, President of SPEC.

"The outpouring of support for SPEC was truly humbling," stated Norwood. "It is confirmation that the pool service industry recognizes the need to have strong representation in Sacramento before the Legislature and regulatory agencies."

Contributions from SPEC were received from:

IPSSA--\$9,000
The Western Pool & Spa Show--\$5,000
East Bay Chapter--\$2,000
San Fernando Valley Chapter--\$2,000
Santa Clara Valley Chapter--\$2,500
Monterey Coast Chapter--\$500
San Fernando Valley Metro Chapter--\$2,500
Tri-Valley Chapter--\$500
Orange Coast Chapter--\$500
Region 7 Chapter--\$5,000
Carlsbad Chapter--\$500
San Gabriel Valley--\$200
Westside Chapter--\$2,000
Region 6 Chapter--\$500
Hemet Chapter--\$500
San Diego East Chapter--\$1,400
Rancho Del Mar Chapter--\$250
Temecula/Murrieta Chapter--\$500
Palm Springs Chapter--\$500
South Bay Chapter--\$250

"This strong show of support could not have come at a better time," said Mike Geremia, President of Geremia Pools in Sacramento and SPEC Board Chairman. "In this tough economy we are trying to grow SPEC so we can meet our budget and create a strong grassroots

network to support the Sacramento efforts of SPEC."

"SPEC is about to launch an effort to attract 1,000 new members to help accomplish this goal. If we are going to be successful in protecting and defending the interests of the spa and pool industry we need hundreds of members throughout the state we can call for grassroots political efforts," continued Geremia. "This is why we reduced membership to \$100 per year (or \$9.00 per month) for the service industry."

Diamond Bar Chapter @ 100% Membership

As a terrific jump start to SPEC's efforts to expand its membership, the IPSSA Diamond Bar Chapter signed up 100% of its members as individual service members of SPEC. They presented a check at the recent Leadership Meeting in the amount of \$2,000 representing those memberships.

"This is an outstanding development that will serve as a model for our outreach efforts," said Mitch Brooks, SPEC Executive Director.

East Bay Chapter Doubles Down

At their February 7th meeting, the East Bay IPSSA Chapter presented SPEC President John A. Norwood with a contribution of \$2,000. This contribution was in addition to the \$2,000 the chapter contributed to SPEC at the IPSSA Annual Leadership meeting. Norwood made the trip to Lafayette to speak to approximately 40 members of the chapter about the role of SPEC, as well as legislative and regulatory issues affecting the pool service industry in 2012.

Western Pool & Spa Show Kicks in Big

The Western Pool & Spa show contributed \$5,000 at the IPSSA Leadership Meeting and announced a commitment of another \$5,000 at the Western Pool & Spa Show scheduled for March 15th thru 17th in Long Beach, California. "The Western Pool & Spa Show has always been an organization SPEC could count on for support," noted John A. Norwood. "Last year we signed up a number of new members at the show and are looking forward to at least doubling that number this year."

I, the undersigned, waive any and all claims against IPSSA, Inc, IPSSA Management Company, IPSSA Chapters and/or its individual members, arising out of my participation in the IPSSA Sick Leave Program, including, but not limited to claims for lost income resulting from improper maintenance performed by IPSSA members. I have read and understand the standing rules for the Sick Leave Program and agree to participate in that program.
