## President's Message

As you are aware, the drought in California has triggered new restrictions and guidelines regarding water use and management. In April, the governor asked for a 25% statewide reduction in water usage. On June 1st, San Diego's mayor mandated new countywide rules restricting outdoor irrigation to two times a week and is working on an ordinance to enforce the rules. These mandates cause heightened awareness and some confusion regarding water usage and conservation.

Over the last couple of months, our chapter has increased financial support for the work CPSA is doing for the pool

industry by educating and fighting negative publicity regarding building and owning pools during a season of drought. It is important that we band together to combat misinformation and negative publicity about our industry. In addition, we must actively participate in ongoing dialogue with the public to correct misinformation.

I encourage everyone to stay informed and on top of current events. To help stay informed, we receive the following two publication: *Pool & Spa Service Industry News* and *The IPPSAN*. Also, for those that are on Twitter, I encourage you to follow [CPSA](#)

and [Let's Pool It Together](#), where CPSA provides tips, articles, and discussions for water conservation to support our discussions with pool customers.

In our June meeting, we will further discuss products and ways we can help our customers reduce pool water evaporation. We look forward to seeing you there!

Sincerely,  
Michael Harris  
Vice President, San Diego Chapter  
(Acting President while Austin is on his honeymoon)
