MAY

SAN DIEGO CHAPTER MONTHLY NEWSLETTER

2018

*May 16 General meeting:*  
**Planned CPR Training has been Delayed to a future date.**  
*Informative Presentations at General meeting!*  
**Sat 5/19, Chapter Picnic – Noon to 4pm**  
**Admiral Baker Picnic Grounds Gazebo #4**

## President's Message

Happy May Everyone!

The CPR training that was scheduled for this month has been postponed at the request of the training company. We will still have our regular monthly meeting on Wednesday, May 16. There will be some informative presentations in lieu of the CPR training. We will also have our annual Spring/Summer picnic on Saturday, May 19. Either event will count as attendance to a "meeting" so be sure to attend one of these. Heck, why not attend both? By the way, we will re-schedule the CPR training soon....!

As Summer approaches it's important for us to prepare for increased pool use. Now is a great time to do filter maintenance, fix leaky pumps, or

suggest last minute upgrades to plaster, decks, decorative rocks, or solar systems...just to name a few. Our chapter supporters are ready and waiting for you to call them.

I look forward to seeing many of you at either (both?) of our May events. Will you be the next one to win a raffle prize at the general meeting? Will you be one of the big winners at the picnic..? You won't win if you don't show up, so come on!

James Morketter  
(619) 708-4972-call or text

# Liquid Sandblast

## Tile Restoration Sealer

- ▶ Resists Calcium Build-up
- ▶ UV-Resistant
- ▶ Tile, Stone, Masonry

### Tile Restoration Sealer (TRS)

is a water-based thermoplastic acrylic emulsion sealer for resilient tile, concrete and masonry surfaces. Unlike most modified sealer-finish formulations, TRS has been formulated to provide comparable or better performance than aqueous acrylic-urethane systems typically found in the market place today. Not affected by UV rays, will not yellow, reduces calcium build up and makes clean up substantially easier. Gives tile a wet appearance.

### DIRECTIONS:

**Preparation:** Surfaces must be clean of all dirt, oil and grease prior to application. Hard water deposits should be removed using **Liquid Sandblast Tile Cleaner** prior to sealing.

**Application:** Apply 1-2 coats. Using a sponge or other suitable applicator, apply a thin coat of TRS, overlapping each pass. Under normal conditions, only 30-40 minutes dry time is required. If weather is very humid or damp, longer dry times and fewer successive coats may be necessary.

**Coverage:** Approximately 180 square feet per 32oz bottle, based on 2-coat application.

**Warning:** Make sure product does not run off tile onto pool surface, as it may show up as a discoloration.

I, the undersigned, waive any and all claims against IPSSA, Inc, IPSSA Management Company, IPSSA Chapters and/or its individual members, arising out of my participation in the IPSSA Sick Leave Program, including, but not limited to claims for lost income resulting from improper maintenance performed by IPSSA members. I have read and understand the standing rules for the Sick Leave Program and agree to participate in that program.
