 2400 ADMIRAL BAKER RD
 SAN DIEGO 92120
MANDATORY ATTENDANCE!!!

The Skimmer

OCTOBER

SAN DIEGO CHAPTER MONTHLY NEWSLETTER

2018

*October 17 General meeting is MANDATORY ATTENDANCE:
 Votes on B.K. Taylor and David Courey Awards
 Surveys on Pool Service and Chapter Events
 Pass the Hat for Swimming lessons
 Several Chapter Supporters will have Information tables*

President's Message

It's almost hard to believe that it's October. This year seems to have gone by quickly. The air is cooler, the pools are being used less and the days are ending earlier. I've noticed a big decrease in the amount of chlorine I use each week. It's kind of weird considering how, during the Summer months. I thought I would never...feel cool weather...again....

But here we are in October. This month our general meeting falls on the 17th. Our MANDATORY MEETING is on October 17 at 7PM. If you'd like to arrive early, you could have a slice or two of pizza and some salad. We will have several chapter supporters in attendance with tables set up to display their services. We won't be voting on new officers, but we will vote on a B.K. Taylor awardee, and a David Courey award recipient. We will vote to bestow honorary membership status on one of our own as well. There will also be two surveys, one regarding service and repair, and another regarding

future chapter events.

We will "pass the hat" to collect money to provide swim lessons to needy adults and children in our community, so be sure to bring some cash for this please. Nicole Macneil will be at the meeting to speak briefly about this great cause.

Speaking of future chapter events, be sure to schedule time in November to attend the Zodiac plant tour in Vista. This will be an exciting opportunity to see where Jandy and Zodiac products are made. After the tour, Jandy will be hosting a happy hour at a local brewery! Attendance, while not mandatory, is limited. We will have sign up details available at the meeting.

I'm looking forward to seeing all of you at the meeting. Please contact me if you have any questions or concerns.

Zodiac to Host IPSSA Training Event this November

On November 7th, Zodiac Pool Systems, LLC will host an IPSSA training event at their headquarters location in Vista, California.

Attendees will get a behind the scenes look at Zodiac's business while getting technical training.

Event Highlights Include:

- Tour Zodiac's manufacturing plant to see how products are assembled
- Learn the history behind Zodiac and where we're headed
- Meet your local sales and technical support team
- Get training on Jandy ProSeries JXi Heaters and IQPUMP01 VS-Pump Controls
- **Start Time** – 1:00PM
- **End Time** – 4:30PM
- Happy Hour at Local Brewery (TBD) After Event

This is a free event but we do ask that you RSVP by Nov 1st to Daniel Nicholas at Daniel.Nicholas@zodiac.com

DATE	EVENT	TIME	VENUE	NOTES
2018				
Oct 17	Mandatory Gen Meeting	7:00 pm	Admiral Baker Clubhouse	Attendance Satisfies Meeting Requirement
Nov 21	General Meeting	7:00 pm	Admiral Baker Clubhouse	Attendance Satisfies Meeting Requirement
Dec 8	Christmas Holiday Party	TBA	DoubleTree Hotel	Attendance Satisfies Meeting Requirement

----- **September 19th 2018 General meeting – cto 7:00pm**

- Recite Pledge of Allegiance
- Morketter initiated committee reports
- Rauscher took questions about August minutes
- MacArthur asked why summer break winnings were not reported and that they be reported in upcoming October skimmer minutes
- Bauer presented Financial reports
- MacArthur asked why the blood drive breakfast compensation was taken out of the education nds
- Bauer replied to MacArthur stating it was a decision made by the previous administration
- MacArthur spoke about education fund and asked about ideas for tips of the trade
- George Ludwig spoke about the December dinner party at the DoubleTree Hotel. We will be having the same DJ and Casino party. He also discussed entertainment committee goals for the future
- Haynes introduced chapter supporter Alpha Water, and Brick and Block
- Haynes spoke about the blood drive on Saturday
- Morketter further spoke about the blood drive. He also requested everyone consider a candidate for the David Correy and BK Taylor Awards.
- Morketter mentioned the mandatory October meeting will have pizza salad cookies and drinks
- Ludwig asked if the October meeting food being funded through proper means
- Haynes and MacArthur spoke about the importance of networking and attending classes
- John from poolsafe gave away Subway tickets
- Conradi won the door prize but was not present it will roll over to next month
- Brian Davis wins \$25
- Weaver, Grossefinger, MacArthur, Mirelez all won Subway cards
- John Baldwin wins a bottle of Pool Tech
- Haynes wins a 50 lb bucket of tabs donated by SCP
- meeting adjourned 8 p.m.

10/1/2018 IPSSA SD board meeting CTO: 7:04

- Ludwig was present to discuss the December formal dinner details with the board
- Ludwig mentioned he will provide a dinner details insert on the minutes in the December skimmer
- Bauer provided financial report
- The door prize will roll over to October meeting at \$150
- Harris motioned to nominate Easy-Care and Blue Moon and Sun Chaser as nominees for the David Courey award. Adam seconded and the motion passes unanimously
- Morketter nominated Bob Fowler for honorary member. Haynes seconded, motion passes at 4 to 1 vote
- Bauer motioned to put Bill Peck on the honorary list. Haynes seconded, the motion was tabled
- Morketer handed out MacArthur's Pool Service survey. The board reviewed and made edits.
- Harris will attend region 7 meeting on October 8th
- Meeting adjourned 9:19 PM

At our Summer Break event held at SCP in May the following raffle prizes were awarded:

Adam Haynes won a Pentair Rebel Cleaner
 Brett Allard won specialty chemicals from EZ Care and Thornburgh
 George Ludwig won a drive motor
 Mike Harris won a Pentair DE filter
 A non-IPSSA member won a Pentair Rebel Cleaner

\$465 was collected for the Swim Fund

IPSSA SAN DIEGO CHAPTER CONTINUING EDUCATION

General Meeting

October 17, 2018 7pm

Education Reimbursements -

- Classes 100% class/show cost.
- Outside SD County 100% class/show cost+\$250 for expenses.
- Outside So Cal 100% class/show cost+ \$400 for expenses.
- Contractor License - 100% of non-recurring expenses such as application test fees, fingerprinting charge etc., up to \$1000.

Must provide proof of attendance and payment. Submit claim within 30 days of completion/attendance.

From: "Kim Skinner" <kim@on-balance.com>
Date: September 25, 2018 at 5:34:35 PM PDT
Subject: Is LSI Always Reliable for Plaster Pools?
Reply-To: "Kim Skinner" <kim@on-balance.com>

Using the Langelier Saturation Index as a guide for maintaining proper pool water balance and to protect pool plaster has become a mainstay in our industry, and we believe, for good reason.

We at onBalance have conducted several LSI experiments and have determined that maintaining a balanced LSI (-0.3 to +0.5) helps prevent scaling and prevent the etching of plaster finishes.

However, one plaster industry leader suggests that even when pool water is LSI balanced, if the alkalinity level is below 80 ppm (the industry's Ideal minimum, not Operating minimum, which is 60), the pool water is aggressive and can discolor or damage pool plaster. Not so.

Anyone that is experienced in calculating the LSI knows that a low alkalinity can be offset by raising the calcium level and/or raising pH to keep the water balanced. To demonstrate and confirm that, we conducted several plaster experiments.

For example, two quality pool plaster coupons were made and cured in balanced water for 30 days. At that point, one coupon was placed into water that had a low Total Alkalinity of 40 ppm, well below the minimum standard. The Calcium level was set at 350 ppm and the pH was maintained from 7.8 to 8.0, which off-set the low alkalinity and achieved a balanced LSI of about -0.1 to +0.1.

The other plaster coupon was placed into water with a low Total Calcium level of 90 ppm. The alkalinity was maintained at 130 ppm and the pH from 7.8 to 8.2, which together off-set the low calcium level and achieved a balanced LSI of about -0.1 to +0.3.

After six months in the water, the plaster coupons were removed from the water containers, and the water was tested for the calcium content to determine if any dissolution and etching of plaster surface material occurred. (An increase in calcium from the water's starting point would indicate that calcium had been dissolved from the plaster coupon, which contains the only available source of calcium in this experimental set-up).

The result? There was zero increase calcium in either water container.

The results of this experiment are totally consistent with the concept of calcium carbonate saturation as published in the municipal water supply, as well as the swimming pool chemistry industries. The results demonstrate that even when the alkalinity or calcium level is low – below the APSP's minimum standard – but the LSI calculation shows that the water is balanced, then the water IS balanced, and therefore, not aggressive. But understand, we aren't recommending that maintaining low alkalinity or calcium hardness levels is the preferred way. This is just information to help pool builders and service confront false claims about water chemistry and various plaster problems.

The False Claim Regarding Aggressive Water

It is very unfortunate when new pool plaster surfaces sometime develop either gray mottling, white spotting and streaking discoloration, flaking (spalling), craze cracks, calcium nodules (from delamination), or other such defects, all of which are attributable to poor plastering workmanship, and yet, instead of advising the plastering company that improper plastering practices occurred, one NPC inspector (incorrectly) tells pool builders, service techs, and pool owners that aggressive water causes the above problems.

As mentioned above, the blame is often directed at low alkalinity or calcium hardness levels even though the actual LSI was balanced! But more importantly, the above listed plaster problems are NOT caused by aggressive water. Cement literature, empirical evidence, and even the NPC/Cal Poly/NPIRC study results demonstrate that.

Even when pool water IS aggressive, and etches plaster, it etches it **uniformly**, not in a mottled, spotted, or streaked pattern unless the plaster is non-uniformly defective as well.

It is our hope that pool builders, service techs, and pool owners will not be fooled by such non-sense. But it is happening far too often. Members of the onBalance team are often contacted regarding plaster problems, and we try our best to help them avoid being a victim of false accusations and claims.

Comments are welcomed.
